

MSPE Membership

Michigan Society of Professional Engineers (MSPE) members are professional engineers from all disciplines across Michigan. Our mission is to promote the ethical, competent and licensed practice of professional engineering in order to protect the public and enhance the professional, social and economic well-being of our members.

We support the interests of our members through political and legislative involvement, leadership training, professional development, and participation in programs to raise awareness of the impact of engineering upon public health and well being. We offer scholarships to encourage young people to enter the profession.

Who can join?

- Licensed Professional Engineer (PE)
- Engineer-in-Training (EIT) or Engineer Intern (EI)
- Not yet an EIT or PE but are interested in pursuing engineering licensure
- College students pursuing a degree in engineering

Member Benefits

Membership in MSPE is an investment in your profession and career. Here are some of the benefits of membership in MSPE:

- Promote PEs with a positive image
- Networking opportunities
- Legislative and political advocacy
- Continuing education and events
- Monthly newsletter
- Job board listing current openings
- Professional recognition
- Opportunity for public service
- Leadership and acknowledgement opportunities
- Mentoring opportunities
- Scholarship program
- Participation in MATHCOUNTS
- Participation in National Engineers Week
- Three levels of membership: NSPE, MSPE and local chapter
- Discounts on products and services

Events and Seminars

MSPE offers a variety of events that benefit our members by sharing information, providing education, promoting engineering licensure and providing valuable networking opportunities.

A few of our events are:

- Annual Conference
- Vendor Showcase
- Fall Educational Seminar
- Legislative Day
- Engineers Week events
- PE Day activities

"I have found MSPE membership to be very beneficial to my professional and personal life. I can count on MSPE to provide the information and education I need to stay on top of the latest issues affecting Professional Engineers."

Robert Wheeler, PE
Consumers Energy

Committees

MSPE Committees provide a unique opportunity to work with other members to address important issues and shape the future of the organization.

Our committees include:

- Education
- Scholarships
- Legislative & Government Affairs
- MATHCOUNTS
- Awards

Three-tier Membership

When you become a member, you are actually getting three memberships in one. You will be represented on the National, State and Local level.

National - NSPE keeps its members in touch with the latest in their field through respected publications and information resources, opportunities for mentoring and continuing education, and through a national conference and meetings, where members can meet and share ideas with colleagues.

State - By participating in MSPE on the state level, members can build leadership skills and earn professional recognition through volunteer opportunities. In addition, members can participate in statewide conferences and events as well as advocacy efforts at the state level.

Local - MSPE local chapters offer engineers the chance to network and gain professional referrals through contacts with colleagues in their communities. Local chapters also provide scholarships and participate in MATHCOUNTS.
