

# ADS Continuing Education Opportunity

---

Advanced Drainage Systems is offering MSPE Southeastern Chapter members and guests an opportunity to earn 1 pdh, while learning about the topics listed below. Please join us for the March meeting to be held at the City of Monroe City Hall in the 3rd Floor Conference Room, located at 120 East First St, Monroe, MI 48161 Wednesday, March 16 at 11:30am. SE Chapter meeting to follow.

## Topics Covered

### Green Infrastructure Solutions

Learn how our new and innovative products can be integrated to meet all your Green Infrastructure requirements. We get into the details about the new EcoPure BioFilter™ as a GI and filtration device, along with several other GI practices.

### Recycling High-Density Polyethylene into N-12 Pipe

Ever wonder where all of your recycled plastic goes when you drop it off in your recycling bin each week? ADS is the #2 recycler of HDPE in North America and we will share the entire process with you - from curb side pickup to LRFD structural analysis.

### ADS Online Design Tools

Learn about the ADS suite of innovative and user-friendly stormwater management design tools. These tools provide the capability to quickly create site specific detention system layouts, size and select a treatment device and create custom watertight catch basins.

Please contact ADS Regional Engineer (Michigan) Miguel (Mick) Vargas, PE with any questions.
